💻 GitHub: https://github.com/sulyman560

Profile Summary:

Enthusiastic and detail-oriented MERN Stack Developer with strong knowledge of MongoDB, Express.js, React, and Node.js. Skilled in building responsive and user-friendly web applications, writing clean and efficient code, and integrating APIs. Eager to contribute to a dynamic team and grow as a full-stack web developer.

EDUCATION:

B.Sc. in Computer Science & Engineering (Ongoing) | 2023-2027

University Name : Northern University of Business & Technology, Khulna.

Diploma in Engineering "Computer Technology" | 2017-2021

Institute Name: Jashore Polytechnic Institute, Jashore

CGPA: 3.21 / 4.00

Year of Completion: 2022

SSC in "Science" | 2015-2016

School Name : Hamidpur Secondary School, Jashore

GPA: 4.41 / 5.00

Year of Completion: 2017

Personal Projects:

1.Project : GreenCart – E-Commerce

Live link: https://greencart-ashy.vercel.app

Tech Stack: React, Node.js, Express, MongoDB

A full-stack e-commerce web application where users can browse products, add to cart, and place orders.

Key Features:

- Product browsing with category filters
- Add-to-cart and checkout system
- User authentication with JWT
- Admin panel for product management
- Responsive design using Tailwind CSS

2.Project : Ping Up – Real-Time Chat Application

Live link: https://ping-up-wine.vercel.app

Tech Stack: React, Node.js, Express, MongoDB

A real-time chat web application for instant communication between users.

Key Features:

- Real-time messaging using Socket.io
- Secure user login and signup system (JWT Authentication)

- One-to-one and group chat functionality
- Message saving and retrieval from MongoDB
- Responsive and modern UI using Tailwind CSS

3.Project : Food Delivery Web Application

Live link: https://food-del-frontend1-5l6a.onrender.com

Tech Stack: React, Node.js, Express, MongoDB

Key Features:

- User registration and login system (JWT Authentication)
- Add-to-cart and checkout functionality
- Real-time order update simulation
- Admin dashboard for managing items and orders
- Responsive UI built with React and CSS

Achievements:

- Developed 3+ full-stack projects using MERN stack
- Improved API performance by 20%

Project Experience:

- Designed and developed **responsive, user-friendly interfaces** using **React.js** and **Tailwind CSS**.
- Built and integrated **RESTful APIs** for smooth communication between client and server.
- Implemented **secure user authentication** and **authorization** using **JWT**.
- Worked with **MongoDB** for database design, CRUD operations, and data management.
- Learned to handle **real-time communication** with **Socket.io** for instant messaging.
- Deployed applications on **Vercel** (frontend) and **Render** (backend).
- Strengthened **problem-solving**, **debugging**, and **version control** skills using **Git & GitHub**.
- Improved understanding of **full-stack architecture**, **state management**, and **API error handling**.

SKILLS

- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, Bootstrap 5
- **Backend:** Node.js, Express.js, MongoDB, Mongoose
- **Programming Languages:** C++, Java
- **Tools:** MS Word, MS Excel, MS PowerPoint
- **Version Control:** Git, GitHub
- **Deployment:** Vercel, Render

Soft SKILLS

Hardworking and self-motivated • Strong communication & teamwork skills • Analytical & problem-solving mindset • Ability to plan and execute tasks efficiently

Language

Bangla (Native), English (Fluent — reading, writing, speaking)
